

## SolarInvert Energy Solutions

# 1 5 kw solar inverter factory in Portugal

## Overview

---

Does Huawei have a photovoltaic inverter?

So far, Huawei has supplied inverters for over 118 GW of photovoltaic projects globally, of which 8.5 GW in Europe. In Spain, it has already installed 1.5 GW. The next target is Portugal.

What is the Fernando Pessoa photovoltaic project?

We are building the Fernando Pessoa photovoltaic plant in Portugal, the largest photovoltaic project in Europe and the fifth largest in the world. With 1,200 MW of installed capacity, it will be an example of environmental respect and coexistence and will supply renewable energy to 430,000 homes.

Where is the Fernando Pessoa photovoltaic plant located?

The Fernando Pessoa photovoltaic plant in Portugal is set to become the largest photovoltaic project in Europe and the fifth largest in the world. It will be located in the municipality of Santiago de Cacém, near Sines, a logistics hub in southern Europe, and will have Prosolia Energy as a partner.

Who is the largest inverter supplier?

Today Huawei is the largest inverter supplier, distinguishing itself by the offer of decentralized inverters (even for larger, 1GW plants) and solutions that include artificial intelligence and 5G networks.

How many PV modules can be connected to a solar inverter?

The number of PV modules that can be connected to a solar or hybrid inverter depends on the power of the individual PV modules and the power class of the inverter. For example: If the PV system consists of 10 modules with a power of 300 W each, that are connected in series, the maximum power is 3 kW peak.

How many homes will a photovoltaic plant supply?

With 1,200 MW of installed capacity, it will be an example of environmental respect and coexistence and will supply renewable energy to 430,000 homes. The Fernando Pessoa photovoltaic plant in Portugal is set to become the largest photovoltaic project in Europe and the fifth largest in the world.
