

## SolarInvert Energy Solutions

# 100kw hybrid inverter factory in Tajikistan

## Overview

---

What is a hybrid inverter?

Both solar inverter and hybrid inverter are widely used in PV solar energy into electric energy. Hybrid inverter contains the function of a solar inverter, also adds a built-in solar charge controller. Also it can be a combination of off grid and grid tie inverter in one machine with same description as you called hybrid inverter.

What is a 3 phase solar hybrid inverter?

Three phase off grid inverter built-in pwm controller, suitable for large power AC load. Off grid three phase solar hybrid inverter with pwm/mppt can be used in single-phase and three-phase ac load with total power not exceeding 100kva/120kva/125kva/150kva/160kva, 384vdc to 380vac. ■ Three Phase Hybrid Solar Inverter Feature.

How many inverters can a 3 phase hybrid inverter support?

Supporting parallel operation of up to 4 inverters, it can be expanded to an impressive 400kW capacity, making it ideal for high-power applications. The 100kW 3-Phase Industrial Hybrid Inverter is a powerful and scalable solution designed to meet the demands of large industrial energy systems.

What types of inverters do xindun produce?

A: We produce various types of inverters: pure sine wave inverters, off-grid inverters, on/off grid inverters, solar hybrid inverters, single phase inverters, 3 phase inverters, low frequency inverters, high frequency inverters, etc. Don't know which type of inverter to choose?

Contact XINDUN now!.

What is a solar inverter?

A: Inverter is design to convert DC (Direct Current) into AC (Alternating

Current). Both solar inverter and hybrid inverter are widely used in PV solar energy into electric energy. Hybrid inverter contains the function of a solar inverter, also adds a built-in solar charge controller.
