

SolarInvert Energy Solutions

10KW solar water pump

Overview

What are solar energy-powered water pumps?

Solar energy-powered water pumps are water pumps running on the electricity that is generated by solar energy. For generating solar power, solar photovoltaic (PV) systems are used for complementary energy sources, they are deployed alongside diesel pumps in areas with plenty of sunshine and where the cost to run power lines is high.

How does a 10 hp solar water pump work?

Hybrid 10HP Solar Pump The 10 HP hybrid solar water pump can run electricity from three power options namely- the grid (government electricity), solar battery and solar panel. The system uses solar energy when the sun is shining and then turns into the main grid at bad weather or rainy season.

What is a surface 10 hp solar pump?

As the name suggests, the surface 10 HP solar pumps operate to pump water for a surface water system. Surface solar pumps are limited by the distance they can lift water. The maximum suction lift is about 8 meters. It's uses include irrigation, distribution, and supply of water. These pumps carry water from one place to another.

How many liters a day can a solar water pump run?

1,20,000 – 2,00,000 liters per day. 5 years warranty for complete solar system and 25 years for solar panel. With a 10 HP solar pump VFD (Variable Frequency Drive), farmers can convert their existing water pumps into solar water pumps.

How does a solar pump work?

In solar pumps, the sunlight falling on the solar panels gets converted into electricity that runs the solar pump. The solar pumping system draws water from open wells, bore wells, streams, ponds, canals, etc. The system requires

a shed-free zone for the installation of a solar panel. The shaft fixed to the pump rotates.

What are the specifications of a DC submersible water pump?

The detailed specifications for the DC submersible water pump are provided below. 1,20,000 – 2,00,000 liters\day. 5 years warranty for complete solar system and 25 years for solar panel. #4. Surface 10HP Solar Pump As the name suggests, the surface 10 HP solar pumps operate to pump water for a surface water system.
