

SolarInvert Energy Solutions

12-72 volt inverter

Overview

What is 12v-72v to 220V power inverter?

Details □POWERFUL DC-AC□This power inverter 12V-72V to 220V provides 3500W continuous DC to AC power, 7000W peak surge during load start-up, 12V-72V to 220VAC pure sine wave with conversion efficiency 90%, reduces conversion loss.

What is a 12-volt inverter?

The Mecer 1KW 12V Pure Sine Wave 100AH Battery Inverter Trolley is a 12-volt inverter that can be used to power various devices. It features a pure sine wave output and excellent overcurrent protection, allowing it to handle large starting currents. Additionally, it comes with independent solar three-stage charge management to improve charge efficiency.

What is the difference between a 12V and 72v inverter?

The 12V inverter is only suitable for 12V batteries. The 72V inverter is only suitable for 72V batteries. - Before connecting the inverter, make sure that the inverter switch is turned off! - When using the inverter, please tighten the positive (+) and negative (-) terminals, otherwise the loose connections will become hot due to poor contact.

How many AC outlets does a 7000w inverter have?

□EASY-TO-USE□ This 7000W inverter 12V-72V offers 2 AC Outlets and LCD smart display , along with two 3Ft 6AWG Cables. Perfect for outdoor emergency AC power supply during work trips, camping and more. **NOTES:** Power input should be deep cycle battery of 80% discharge depth and above.

Which Inverter should I Choose?

If your applications are inductive loads, please choose the inverter whose continuous power is 3-7 times higher than the Watts of your appliances. If you want to power up to one refrigerator, we suggest you use 10 times higher

power inverter. 4. Please turn off the load first then turn off the inverter.

What is a car inverter converter?

□Anti-interference Pure Sine Wave Inverter□The car inverter converter adopts pure sine wave technology, which has low interference, low noise and large load capacity, it is a voltage converter that converts 12V / 24V / 48V / 60V / 72V DC into 110V/120V/220V/230V/240V AC. It can be used in emergencies, camping, cars, homes, RVs and solar energy.
