

SolarInvert Energy Solutions

120W lithium battery energy storage power station

Overview

How much does a portable power station weigh?

Package Weight: 3.3 lbs The ultra-bright LED light of the portable power station has 2 lighting modes, constant, twinkling or SOS mode. Also there are 3 levels of brightness. Working as an essential kit for night lighting and emergency work, it emits a maximum of 2.2W and 140 lumens for 37hrs on full charge.

How to recharge a power station?

Two Recharging Ways: There are two ways to recharge the power station from AC wall outlet adapter and a solar panel (NOT INCLUDED). The main unit is equipped with a battery level indicator LED, so you can know well the battery level and charging status.

How to charge a power station efficiently?

EFFICIENT CHARGING: Use the adapter included in the package to charge the power station from 0 to 80% in 2hrs, and use the this power supply to charge other devices at the same time while charging, which could be equivalent to a charging strip , improving the efficiency of uses.

What is an eves-120120 EV charging station?

The EVES series of off-grid, mobile EV charging stations provide an innovative solution to charge electric vehicles anytime, anywhere. The EVES-120120 combines 120kW DC fast charging output power with a 120kWh lithium battery pack enabling true off-grid EV charging.

Why should you choose dauntu energy storage?

There are many stringent requirements on the security and reliability of BMS, and dauntu energy storage has made full preparations. From core chip selection to system-level architecture, we guarantee the safety and reliability of battery products in an all-round and real-time manner.

What is the capacity of a power supply?

ROBUST & RELIABLE POWER! Capacity of 24,000mAh/88.8Wh: It is recommended not only for outdoor use, but also for office and home in the case of an emergency. Electricity can be used safely even during long-term power outages caused by earthquakes and hurricanes.
