130w high power PD fast charging portable mobile power bank

Overview

130W PD Fast Charging: With dual USB-C ports and one USB-A port, our portable power bank delivers a maximum total power output of 130W, enabling simultaneous charging of three devices. How many devices can a power bank charge?

Whether you're charging your smartphone, tablet, or laptop, you can count on rapid and efficient charging every time. Maximize your charging efficiency with the ability to charge up to three devices simultaneously. Whether you're sharing power with friends or multitasking on the go, our power bank has you covered.

Which power bank is best for high-speed charging?

Lanluk The Lanluk is the best power bank for high-speed charging, thanks to its two 2.1A output ports. They have an auto-intelligent controlling technology, which detects your device's energy rating for fast and safe charging. This also ensures your smartphone doesn't start acting up after using the power bank for a short while.

Why should you use a power bank?

Whether you're travelling across the globe or commuting to work, stay powered up wherever life takes you. Stay informed about your power bank's status with the smart digital display. Monitor battery levels and charging status at a glance, ensuring you're always prepared for your next adventure.

How do I know if my power bank is charging?

Stay informed about your power bank's status with the smart digital display. Monitor battery levels and charging status at a glance, ensuring you're always prepared for your next adventure. Experience lightning-fast charging speeds with our power bank's ultra-fast 130W total output charging.
