14 8V lithium battery pack

Overview

What is a 14.8 volt lithium ion battery pack?

The 14.8V lithium-ion battery packs are made of the world's most reliable cells. Each 14.8 Volt lithium ion batter is 4 series with 18650 single cells. We track and test the quality of the 14.8V 4S li-ion battery pack from the raw materials to production quality control.

What is a 14 volt lithium ion battery used for?

14 volts Lithium ion battery is mostly used for power tools. Like most popular brand dewalt 14.4volt battery and makita 14.4 volt lithium ion battery packs. For small capacity. It could be just 2 lithium ion batteries in series without paralle. Lithium ion designs have a high power-to-weight and power-to-volume ratio.

What is a 12V lithium ion battery pack?

A 12V lithium ion battery pack is a battery pack made up of three or four lithium batteries connected in series and several lithium batteries connected in parallel. This configuration allows the capacity of a 12V lithium battery to be customized.

What is a battery pack?

A battery pack is a set of any number of battery cells connected and bound together to form a single unit with a specific configuration and dimensions. They may be configured in series, parallel or a mixture of both to deliver the desired voltage, capacity, or power density.

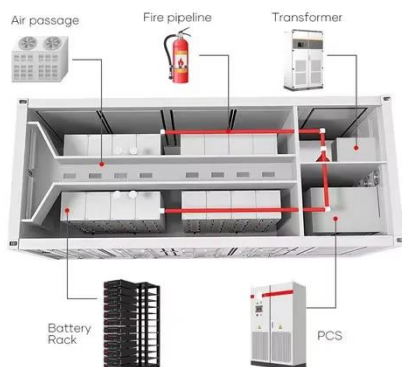

What type of battery does CMB offer?

CMB provides a 18650 4S 14.8V lithium ion battery for various industrial applications and is made of high-quality grade brand cells.

What is a good battery size for a diving light?

This product is 14.8V 6000mAh (4s2p), which should be used in professional diving lighting and other electronic products. This product is 24V 45000mAh (12s9p), which should be used in high-end UAV, golf electric vehicle and other electronic products.
