240v circuit breaker in China in Niger

Lithium battery parameters

Product capacity: 100Ah

Product size: 135*197*35mm

Product weight: 1.82kg

Product voltage: 3.2V

internal resistance: within 0.5

Overview

How many units can a circuit breaker produce?

Equipped with world's most advanced automatic production line. Annual production capacity over 50,000 units. Our circuit breakers are equipped with the world's most advanced automatic production line, featuring an annual capacity of 60,000 units.

What are circuit breakers used for?

Our circuit breakers are equipped with the world's most advanced automatic production line, featuring an annual capacity of 60,000 units. Products are used in a variety of industries, including nuclear power plants, power plants, substations, urban and rural power grids, petrochemical, metallurgy, railways, and ports.

What are the different types of circuit breakers?

In terms of voltage level, it can be divided into HV circuit breakers, MV circuit breakers and LV circuit breakers. Based on its arc extinguishing materials, it has oil-immersed type, vacuum type and filling-in SF6 air. Divided by structure: There are universal (frame type), plastic shell type, and small micro break;

What are the Connection modes of LV circuit breakers?

The connection modes of LV circuit breakers are front board, back board, insert board and drawer board. If users have no special requirements, they supply the LV circuit breakers in front of the board. Front board connection is a common connection mode. (1) Post-board wiring mode: The most important.

Why do you need a new circuit breaker?

Investment in research and development has enabled us to introduce more new circuit breakers to meet the varied requirements of customers across

numerous industries. These breakers have been widely praised for their excellent stability and safety.
