3 kW solar panel 220v home complete set

Overview

How many solar panels are in a 3KW Solar System?

Depending on which panels are used, a 3kW system will comprise of 11 to 12 solar panels which equates to roughly 20m² of roof space. How much does a 3kW solar system cost?

Because every solar installation is different we cannot provide pricing before first assessing your individual needs and requirements.

What is a 3KW solar power system?

3KW solar power system (off-the-grid, standalone) is the obvious alternative to one that is grid-tied. For homeowners that have access to the grid, off-grid solar systems are usually out of question. Here`s why:.

What is a 3KW off grid Solar System?

3KW Off Grid Solar System is a great option for people with average power use, living in small homes. They are particularly suited to small families or couples. Optional Mono/Poly Blue/Black Panels High Efficiency with PERC panels available 25 years warranty with 80% power output PV Array Combiner Box SPD surge protection etc.

Is a 3KW Solar System a good choice?

Batteries are complicated, expensive and decrease overall system efficiency. 3KW Off Grid Solar System is a great option for people with average power use, living in small homes. They are particularly suited to small families or couples. Optional Mono/Poly Blue/Black Panels High Efficiency with PERC panels available.
