

## SolarInvert Energy Solutions

# 36kw off-grid photovoltaic inverter

## Overview

---

What is an off-grid solar power inverter?

An off-grid solar power inverter, also known as a stand-alone inverter or solar battery inverter, is a device used in an off-grid solar system. It operates independently of the power grid and can't feed electricity to the grid. It has no provision to tap into the grid electricity.

What is a 40kW inverter for off-grid use?

The 40kW inverter for off-grid use features high-quality pure sine wave AC output and a 3 phase 4 wire connection. It has a no battery design, a wide DC input voltage range, an LCD display, and converts DC power to AC power in solar power systems.

What is a 5kw off grid solar inverter?

A 5kw off grid solar inverter is a device that works with lithium battery or lead acid battery and provides uninterrupted power supply support for various fields like communication, industry equipment, military vehicles, and solar generating. This specific model is produced by the brand ELEC, which is a part of Sunerise Energy and focuses on R&D and production of off-grid inverters.

What is a 36kw inverter?

The 36kW is an extension of the existing 23kW and 28kW inverter line and features a dual MPPT design with up to 98.6% conversion efficiency and wide operating window of 240-950Vdc. An installer friendly and integrated wire box simplifies installation and reduces BoS costs.

Why should you choose Deye full series inverter products?

In addition, it allows the system to be monitored and controlled remotely. Thanks to the smart monitoring platform, Deye full series inverter products support remotely shutdown immediately when accident occurs. Setting parameters and FW update remotely, which makes PV plant O&M easier. Max.

PV Input Power (kW) Max. PV Input Voltage (V) Max.
