

SolarInvert Energy Solutions

50kw inverter rated voltage

Overview

What is a 50kVA solar inverter?

A 50kVA solar inverter is an intelligent and multifunctional power conversion and supply device which consists of a solar charge controller, a rectifier, and an inverter. It has multiple power point trackers, a wide input voltage range, an integrated data logger as well as RS485/Wi-Fi interface.

What is a high power 50kW grid tie solar inverter?

High power 50kW grid tie solar inverter converts 200-820V DC to 3 phase 380 volt, 460 volt and feed the power into the grid, high reliability due to perfect protection function, powerful communication interfaces, easy operation and installation.

What is a rated power inverter?

Rated Power – this refers to the maximum AC power that the inverter can produce and is usually included in an inverter's model number. For example, SMA's STP 15000TL inverter has a rated power of 15,000W or 15kW. Central Inverters – this type of inverter usually has a power rating that ranges from 100kW to a few megawatts.

What is the cooling method of 50 kW on grid inverter?

The cooling method of 50 kw on grid inverter is cooling fan. And strong IP65 protection, completed sealed cover of 3 phase grid connected inverter suitable for harsh environment.

How many kilowatts is a grid tie inverter?

With a power capacity of 50 kilowatts, this three phase grid connected inverter is typically used for medium to large-scale solar installations, such as in commercial buildings, industrial facilities, or large residential complexes. LCD display, convenient for the user to monitor main parameters of grid tie inverter.

What is a 3 phase grid tie inverter?

Pure sine wave three phase 50kW grid tie inverter without transformer for on grid solar system. 3 phase grid tie inverter has wide input voltage range of 200-820V and wide output range of 280V-480V, max DC input voltage to 850V, multi-language LCD display, 2 way MPPT, MPPT efficiency more than 99%.

50kw inverter rated voltage

SolarMax-6G-Grid-Tied-Solar-Inverters 50KW-60KW

Nov 2, 2024 · Superior Performance
Maximum efficiency Large string current,
Wide voltage range, compatible with
various power grids Compact for easy
installation
