

SolarInvert Energy Solutions

5V 3W solar panel

Overview

What is a 3W round solar panel?

This 3W round solar panel is a 10-solar cell assembly (5V) mounted onto a TPT backplate and covered with rigid tempered glass which protect the solar cells inside. The cell is high efficient monocrystalline solar cell. This 5V round shape solar panel is lightweight and durable. It's also waterproof, UV resistant and scratch resistant.

What is a 5V circular solar panel?

The cell is high efficient monocrystalline solar cell. This 5V round shape solar panel is lightweight and durable. It's also waterproof, UV resistant and scratch resistant. This 5V circular solar panel is great for charging your 3.2-volt DC batteries.

What is a custom shaped 3W solar panel?

This custom shaped 3w solar panel utilizes high efficiency mono PERC solar cells with efficiency up to 22.5%, to ensure its high output. It is laminated by tempered glass to protect the solar cells inside, making it rigid, durable and long lasting.

What is a 6V 5 watt solar panel?

The Suner power 6V 5-watt panel converts solar energy into 6V electricity. It charges batteries and prevents battery drainage in all seasons. Suner Solar Power is great for golf carts, motorcycles, security devices, motorcycles, or any other application that uses a 6V battery.

What is a rigid solar panel?

It is laminated by tempered glass to protect the solar cells inside, making it rigid, durable and long lasting. This rigid solar panel is waterproof, scratch resistant, and UV resistant, specially designed for long term outdoor use in any challenging condition.
