

## **SolarInvert Energy Solutions**

# **60v lithium iron phosphate battery semi-finished battery pack**

## Overview

---

What is a 12V Lithium iron phosphate battery?

A 12V lithium iron phosphate battery is a type of rechargeable battery that comes with a Battery Management System (BMS). The BMS in this battery protects against short circuits, overcharge, and deep discharge. It also balances cells to increase battery life, improve performance, and protect against mishandling.

What are lithium iron phosphate battery stocks?

Lithium-based batteries, specifically lithium iron phosphate batteries (LFP batteries), have become popular for renewable energy storage and EV power. Lithium iron phosphate batteries are a favorite in the battery market, and as a result, investors are eager to get exposure to lithium iron phosphate battery stocks.

What is a LiFePO4 battery pack?

The is lifepo4 battery pack 60V 30Ah For Electric vehicle 20S 5P 3C high-quality LiFePO4 Rechargeable Battery Pack with a nominal voltage of 60V and can be fully charged up to 64 V. The nominal capacity of the battery pack is 6000mah.

What is the nominal capacity of the battery pack?

The nominal capacity of the battery pack is 6000mah. The battery pack has an in-built BMS which prevents the battery from overcharging also prevents it from over-discharging.
