

## SolarInvert Energy Solutions

# 60v to 80v inverter

To Strive forward No Energy Waste

All in one

100~215kWh  
High-capacity

Intelligent  
Integration

## Overview

---

Do I need a 60Hz inverter?

Here in the US, things run at 60Hz, in Europe and most other places around the world, things run at 50Hz. You'll most likely require a 60Hz inverter if you are running a device intended to run on US power. We like to go camping and travel quite frequently.

How much power do I need to use my inverter?

When using the inverter, you want to ensure any products that will be plugged into the unit must be less than 120V and pull 300 Watts or less. Please check the specifications on the products you wish to use to ensure the inverter can handle power required safely.

Can a GreenWorks 80v inverter be plugged into a power outlet?

A: Hello Morton4. It is not recommended to leave the Greenworks 80V inverter connected to the power outlet continuously to keep the battery fully charged, you can charge the battery using a compatible Greenworks 80V charger connected to a standard 120V outlet. Helpful?

.

Does GreenWorks have a power inverter?

80V Cordless Battery 300 Watt Power Inverter (Tool Only) Find peace of mind with Greenworks Limited Warranty. Removable battery powers over 75 Greenworks 80-Volt tools. Media Carousel - Carousel with product photos. Use the previous and next buttons to navigate.

What is a 5kw inverter / battery charger?

The unit is an air-cooled, isolated 5kW AC-DC inverter / battery charger with multiple applications for on-board integration in a hybrid or EV infrastructure. Having totally autonomous functionality or optional control interfaces

including RS485 and CAN and utilizing MODBUS, makes the integration with your control network an easy task.
