8-cell battery cabinet replacement

Overview

What is a battery cabinet / rack?

EverExceed designs customized battery cabinets / racks for individual batteries. The cabinet or racking system can be specified to accommodate any battery cell. From flooded to sealed, from lead acid to nickel cadmium and from vertical to horizontal all kinds of battery cabinet / rack can be designed flexibly to save the space in battery room.

How many batteries can a lithium phosphate cabinet support?

It supports 48V/60V/72V lithium iron phosphate (LiFePO₄) and ternary lithium batteries. The 6-slot cabinet serves up to 15 users per day, often at smaller retail stores or mall entrances. It is highly flexible and supports dynamic parallel connection of multiple units.

What is a VRLA battery assembly cabinet?

EverExceed VRLA battery assembly cabinets are very durable, and easy to install. Engineered for use with most type of battery terminal models, these cabinets can fit a wide variety of applications. This solution is completely customizable and flexible to support your application requirement.

What are everexceed battery cabinets?

EverExceed Battery cabinets are engineered for an uninterrupted power backup source to support the continuous operation of the higher and new requirements of these application backup.
