ASEAN Energy Storage Charging Station

Overview

Does ASEAN have a policy for promoting battery energy storage?

According to the ASEAN Centre for Energy (ACE) Policy Brief: Enabling Policies for Promoting Battery Energy Storage in ASEAN, only a few AMS have related policies. For instance, Thailand's Ministry of Energy presented its 'Energy 4.0' strategy by integrating disruptive energy technologies such as energy storage systems.

Does ASEAN need energy storage?

Determinedly, the region has set the targets of 23 per cent renewable energy share in Total Primary Energy Supply (TPES), and 35 per cent share of renewable energy in ASEAN installed power capacity by 2025. This means that energy storage is required. What Is The Status Quo?

.

Why are EV chargers not available in Southeast Asia?

Public charging network providers in Southeast Asia have been working independently, leading to an inefficient distribution of charging stations. This has resulted in a saturation of EV chargers in commercial areas, and a lack of EV chargers in residential areas where it is more convenient for EV users to use overnight charging.

What is the EV market value in ASEAN?

The EV market in the ASEAN region recorded a value of USD 498.93 million in 2021, which is expected to reach USD 2,665.3 million in 2027. Nevertheless, the lack of EV charging infrastructure has been identified as one of the main challenges in accelerating the adoption of electric passenger cars.

Which energy storage systems are being installed in Thailand?

Thailand installed two sets of KSTAR 5kW+10kWh energy storage systems

(BluE-5000D) in December 2020. The storage already provides a clean and stable night-time power supply at the Chumpoll Temple in Ayutthaya Province, Thailand.

How many EV charging stations are there in Thailand?

Thailand has 1,000 charging stations installed throughout the country and their key initiatives include a plan for 53,000 electric motorcycle taxis by 2022 and 5,000 electric buses by 2025. Recently, the Asian Development Bank and Energy Absolute signed a USD 48 million green loan to finance a countrywide EV charging network in Thailand.
