# ASEAN power grid energy storage regulation

## Overview

---

How is ASEAN reshaping the power grid?

ion, and Control Wide-Area Monitoring SystemExecutive SummaryIn recent years, the ASEAN's power grid landscape is evolving. The integration of Distributed Energy Resources (DERs), such as rooftop solar photo Itatics (PV) systems and battery energy storage, is reshaping ASEAN's power systems by increasing flexibility and resilience.

What is the ASEAN Power Grid (APG)?

The ASEAN Power Grid (APG) is a flagship regional initiative to interconnect the national electricity networks of all 10 ASEAN countries. Conceived under ASEAN Vision 2020 (formally articulated in 1997), the APG seeks to enable cross-border power trading and “fully integrated grid operations by 2045” (ADB 2025).

What is the ASEAN Power Grid financing facility (apgf)?

To address persistent financial constraints and catalyze investment, ASEAN—together with the Asian Development Bank and the World Bank—launched the ASEAN Power Grid Financing Facility (APGF) in 2025. This dedicated platform supports cross-border transmission projects end-to-end, from early feasibility to construction.

How can ASEAN ensure grid stability in an IBR-dominated future?

on control system enhancements, or a bottom-up (demand-side) approach, advanced metering and consumer-side energy management. To ensure grid stability in an IBR-dominated future, further technical studies and knowledge sharing amongst ASEAN's.

How many grid-to-grid interconnection projects are there in ASEAN?

Initiated under ASEAN Plan of Action for Energy Cooperation; progressed through several phases of development. Eight (8) out of the 18 grid-to-grid

interconnection projects under the ASEAN Power Grid (APG) interconnection lists have been constructed and commercially operated.

What is the ASEAN Power Grid memorandum of Understanding (MoU)?

In this context, the successor ASEAN Power Grid Memorandum of Understanding (MoU) is an opportunity to address three key priorities — the creation of a regional institution, an ASEAN Renewable Energy Certificate (REC) market and a transparent regional wheeling charge methodology.
