## Overview

---

The UAE has launched what it says is the world's first and largest 24-hour power project, combining solar photovoltaic with battery storage to deliver 1 gigawatt of baseload electricity. Why is Abu Dhabi leading the charge for solar power battery storage?

Abu Dhabi is leading the charge for solar power battery storage as the biggest facility in the world is set to built. Here's why that's a seriously cool thing.

What is Abu Dhabi's new energy storage system?

The opening, which coincided with the Abu Dhabi Sustainability Week 2019, marks the first integrated control system for energy storage in Abu Dhabi. It aims to serve the city by ensuring load balancing during the day.

Why should UAE invest in solar power & battery energy storage?

The world-leading project reflects the vision and commitment of the UAE leadership in driving socioeconomic and environmental progress. The accelerated integration of solar power and advanced battery energy storage sets a new benchmark in clean energy, driving sustainability and reducing carbon emissions.

Why is Abu Dhabi deploying a new power plant?

"The landmark deployment ensures sustainable energy supply across several key sites in Abu Dhabi as part of an integrated plan to secure sufficient electrical power production to meet growing demand for energy in the emirate," said Awaidha Murshed Al Marar, chairman of the Department of Energy.

Who are Abu Dhabi's future energy companies – Masdar & EWEC?

Abu Dhabi's Future Energy Company, Masdar, and the Emirates Water and Electricity Company (EWEC) are the masterminds behind this groundbreaking initiative. And the UAE President, Sheikh Mohamed bin Zayed Al Nahyan, was

also there to witness the launch.

Does Dubai have a solar power plant?

This virtual battery plant will secure additional electricity supply for 6 hours in emergencies using storage batteries, he explained. He added that the emirate boasts other renewable power generation facilities, including the solar power plant, Noor Abu Dubai, which will be operational soon.
