Acquisition of new energy battery cabinets

Overview

Who owns Blackstone battery energy storage system?

In Q4 2023, renewable energy company Octopus Investments Australia, which is majority owned by the UK-based Octopus Group, acquired the Blackstone Battery Energy Storage System. With an expected enterprise value of US\$514 million once operational, it is the largest proposed battery project in the state of Queensland.

What is the largest proposed battery project in Queensland?

With an expected enterprise value of US\$514 million once operational, it is the largest proposed battery project in the state of Queensland. Q4 2023 saw construction start on the first stage of the Melbourne Renewable Energy Hub.

What is the future of battery storage?

The US is leading the global race in the development of battery storage, with demand for BESS expected to increase sixfold by the end of the decade. Capacity is expected to almost double in 2024 to more than 30 GW, as development of energy storage projects accelerates in line with the rapid growth of variable solar and wind assets.

Is the UK ready for the next big thing in battery storage?

The UK's battery storage capacity is projected to expand to 24 GW by 2030, attracting investments of up to US\$20 billion and accounting for 9 percent of global installation capacity. Major private investors are looking to the UK for the next big thing in battery storage.

Does North Carolina have a 255 MW battery storage project?

Later that month, North Carolina's Strata Clean Energy secured US\$559 million in financing for a 255-MW battery storage project in Phoenix, Arizona. The project will store enough electricity to power 50,000 homes in the state during peak summer conditions for two decades.

How many battery storage M&A deals were announced in 2023?

According to Inframation, 227 battery storage M&A deals were announced in 2023, up 15.8 percent from the year before. These transactions were worth a combined US\$24.1 billion, nearly triple the value recorded in 2022. In both volume and value terms, 2023 represented a new dealmaking high for the subsector.
