## Overview

---

Does Albania have a power supply security problem?

Albania is a net importer of electricity; power supply security is a challenge. Albania's domestic generation is almost entirely dependent on hydropower since the country's only thermal power plant is currently inoperable.

Does Albania have a hydro power plant?

Albania's domestic generation is almost entirely dependent on hydropower since the country's only thermal power plant is currently inoperable. The total installed generation capacity has increased over the last few years because of new private investments in hydro power plants and more recently in small solar farms.

Who is albaelettrica?

Albaelettrica is an historical partner that strongly helps ABB in the Albanian market with its professionalism and competence, both for DIN rail and wiring accessories products. We found in Albaelettrica a highly skilled team always ready to collaborate with us in a professional and positive way."

Who are Karman & albaelettrica?

"Karman and Albaelettrica, a new and dynamic lighting collaboration, that is growing day by day."
