Algeria builds its own solar power generation system

Overview

A Chinese consortium comprising China International Water & Electric Corporation (CWE) and China Nuclear Industry Huaxing Construction (HXCC) began constructing five solar power projects totaling 780 MW in September 2024 as part of Algeria's Solar 2,000 MW program. Will Algeria build a solar PV plant?

The state owned utility for electricity and natural gas distribution in Algeria has signed 19 contracts with local and international companies to construct solar PV plants. In making the announcement recently, the government said the project to produce 3,000MW of solar PV energy is part of its Renewable Energy Development Programme.

What is Algeria doing with solar energy?

Building on the Solar 2,000 MW and Solar 1,000 MW programs launched by Algeria's state-owned company Sonelgaz, which include a wide range of solar energy initiatives, the government aims to diversify its revenue streams and reduce reliance on natural gas, which is currently primarily used for power generation in the country.

When will a 300 MW solar power plant be built in Algeria?

The state-owned China State Construction Engineering Corporation (CSCEC) began building a 300 MW solar power plant in Algeria's Oued Province in March 2024 as part of the Solar 1,000 MW program. The project is slated for completion by late 2025 or early 2026.

Why did Algeria build two power plants?

The construction of a further two power plants was awarded to mixed Algerian groups. A foreign company was awarded the construction rights of another power plant. Minister of Energy and Mines, Mohamed Arkab described the two projects as a "decisive turning point" for Algeria.

How many solar panels are there in Algeria?

“In total, Algeria has an assembly capacity of 500 MW for solar modules, which is expected to increase to 600 MW to 700 MW by the end of 2025,” said Clean Power’s Bakli. Alongside Zergoun, the manufacturer Lagua Solaire has 200 MW of annual capacity for solar panel production in Algeria.

Who will fund solar projects in Algeria?

The Algeria government is to fund the solar projects. Sonelgaz has signed 19 contracts with local and international companies to construct solar PV plants across Algeria.
