Arc flash switchgear in China in Bandung

Overview

What is arc flash training?

The training is offered to ABB's customers, partners and own personnel. The occurrence of an arc fault is the most serious fault within a power system. The destructive impacts of an arc flash event can lead to severe injuries of the operating personnel, to costly equipment damages and long outages.

What arc fault protection solutions does ABB offer?

ABB offers active arc fault protection solutions for both arc fault detection and elimination which can reduce the above-named consequences. Combined they are designed to detect an internal arc in 1.5ms and after its detection eliminate it in less than 4 ms.

What are the consequences of an arc flash event?

The destructive impacts of an arc flash event can lead to severe injuries of the operating personnel, to costly equipment damages and long outages. ABB offers active arc fault protection solutions for both arc fault detection and elimination which can reduce the above-named consequences.
