**Are there any manufacturers  
producing 5G base stations in  
Guyana**

## Overview

---

Who are 5G base stations suppliers?

Suppliers of 5G base stations were benefited from the rapid development of 5G technology. Huawei, Ericsson, Nokia, ZTE, and Samsung are among the world's leading suppliers. In 2024, these five vendors control almost 96.12 % of the global market. China has installed around 12 times as many 5G base stations as the United States.

Where is the first 5G base station made?

Back in July of last year, Verizon received the first U.S. manufactured 5G base station from a facility in Texas. Pictured is Verizon's CTO Kyle Malady holding some of the hardware. Image used courtesy of Ericsson.

Where is China's 5G antenna manufacturing base located?

Its global manufacturing base, located in the Guangzhou Economic and Technological Development District, covers an area of approximately 80,000 sq m. Its 5G antenna and filter manufacturing base, located in China-Singapore Guangzhou Knowledge City, covers an area of approximately 20,000 sq m.

Does Digicel Guyana have a competitive mobile market?

The mobile market has been open to competition since 2001, but only one operator, Digicel Guyana, has successfully launched competing GSM and 3G services. While Digicel quickly built a small lead in the mobile market, it remains a duopoly, and penetration levels are well below those of other countries in the region.

Can Guyana reach its full potential?

The Telecommunications Act presents the country with the potential to benefit from a more level playing field that may attract new players, but nevertheless Guyana's relatively small size and low GDP may restrict it from reaching its

full potential for some more years to come.

What happened to Guyana telecom monopoly?

The end of the 31-year monopoly held by the fixed-line incumbent Guyana Telephone and Telegraph (GTT) occurred just two months after the PPP took power from the APNU+AFC coalition, which had signed a non-binding agreement with GTT in 2019 to liberalise Guyana's telecoms market but failed to take any concrete action to make it happen.
