Astana Photovoltaic Glass Project

Overview

What is Astana solar?

Astana Solar is a member of Astana - Zhana Kala special economic zone. Project capacity - 50 MW per year. Expansibility - up to 100 MW per year. The plant of photovoltaic panels has modern automated European equipment meeting the highest standards of safety and environmental standards. Manufacturer's workshop warranty - 10 years.

Who is Astana solar LLP?

Astana Solar LLP is a subsidiary of NAC Kazatomprom JSC implementing the project "Production of photovoltaic modules with the use of Kazakhstani silicon "KazPV". On December 25, 2012, during the visit of the Head of State to the plant, start-up and commissioning works were launched, the first Kazakhstani photovoltaic module was produced.

When was the first Kazakhstani photovoltaic module produced?

On December 25, 2012, during the visit of the Head of State to the plant, start-up and commissioning works were launched, the first Kazakhstani photovoltaic module was produced. Astana Solar is a member of Astana - Zhana Kala special economic zone.

Where is Astana solar KZ PV 2xx M60 & M72 calibrated?

Address: Germany, Cologne, Am Grauen Stein. Standard photovoltaic modules of Astana Solar KZ PV 2XX M60 and KZ PV 2XX M72 are annually calibrated at TÜV Rheinland (Germany). TÜV Rheinland is the leading international company for the provision of independent audit services.

How many offices does KZ PV 230 M60 have?

It operates in 32 areas of commercial activity, including inspection of equipment, goods and services, technical supervision of projects, etc. The company was founded in 1872 and today has 500 representative offices in 60

countries of the world. KZ PV 230 M60.
