Athens energy storage container price

Overview

What is Athens Self Storage?

Athens Self Storage is a locally owned storage facility that has been serving residents and businesses in the Athens area since 1984. Its friendly and professional staff maintain cleanliness in the facility and provide storage advice, helping customers meet their storage needs and enhancing their experiences.

Should Greece invest in energy storage facilities?

Currently there is a growing interest for investments in storage facilities in Greece. Licensed projects mostly consist of Li-ion battery energy storage systems (BESS), either stand-alone or integrated in PVs, as well as PHS facilities .

How many storage plants are there in Greece?

Currently there are four (4) storage plants operating in Greece, two open-loop pumped-hydro storage (PHS) stations in the mainland (700 MW in total) and two small hybrid RES-storage stations in non-interconnected islands (just 3 MW).

Is Greece preparing for a new energy storage auction?

Greece is gearing up for its second competitive auction for standalone, front-of-the-meter energy storage facilities connected to the electricity transmission network. The auction is part of Greece's 1 GW energy storage program.

Does Greece have a 1 GW energy storage program?

The auction is part of Greece's 1 GW energy storage program. The country announced its 1 GW energy storage program in the summer with three separate tenders featuring 400 MW, 300 MW and 300 MW of capacity. The first tender awarded 12 energy storage projects in August, with 411,79 MW of capacity in total.

When will Greece's second energy storage tender take place?

Greece's energy regulator has published a call for the country's second energy storage tender to take place in February 2024. Greece is gearing up for its second competitive auction for standalone, front-of-the-meter energy storage facilities connected to the electricity transmission network.
