

## SolarInvert Energy Solutions

# Australia Sydney power frequency isolation 50kw inverter

## Overview

---

Who are Solis inverters?

Solis Inverters (the company), a global powerhouse in the solar energy industry, has been acknowledged as the world's no.3 solar. © 2021 Copyright Solis Australasia Pty Ltd.

Why is Solis leading the Australian photovoltaic market?

The unprecedented growth of the Australian photovoltaic (PV) market is being addressed by Solis, which continues to lead from the front by delivering advanced inverter solutions to meet the increasing demand for high-performance, reliable and efficient solar technology in the region.

Are Fronius inverters battery ready?

Fronius also have a 10-year warranty as an on-going special offer and have built a name that people can trust over many years of service in Australia. These inverters are also suitable for zero export (when combined with Fronius' energy meter) and like SMA, are one of the most 'battery ready' inverters on the market.

Is Solis the world's third-largest inverter manufacturer in 2023?

Solis also continued to rank as the third-largest inverter manufacturer globally in 2023. In a groundbreaking collaboration, Solis proudly announces the successful completion of the National Cricket Centre's (NCC) solar project, together with OSW and LONGi Asia-Pacific, executed by Hembrows Electrical.
