

SolarInvert Energy Solutions

Austria solar panels photovoltaic

Overview

How much solar power does Austria generate?

Solar power in Austria contributes 8.82 TWh of generation to the Austrian grid, accounting for 11.2% of total electric power generation as of 2024, with 8.48 GW of installed capacity.

How many solar panels does Austria need?

With more than 3,500 MW thermal the country ranks second in the EU, only behind much larger Germany. Austria aims to achieve a 100% renewable electricity production by 2030 with 1,000,000 homes having solar panels fitted by that date. 11 TWh of extra photovoltaics will be needed above 2021 levels.

Who is Energetica photovoltaic industries?

Energetica Photovoltaic Industries develops, tests and produces high-performance photovoltaic modules in Austria that are among the most technically advanced products in the industry worldwide. Our premium products are characterised by the highest performance, long service life and technological edge.
