

SolarInvert Energy Solutions

Azerbaijan EK energy storage battery new products

Overview

Will Azerbaijan deploy a battery energy storage system?

Signing of documents in Baku, Azerbaijan. Image: Republic of Azerbaijan, Ministry of Energy. Power plant developer ACWA Power and the government of Azerbaijan have signed an agreement to potentially deploy a battery energy storage system (BESS) in the central Asian country.

Is Azerbaijan embracing green energy?

In a significant move towards embracing green energy, Azerbaijan's leading energy company, Azerenerji JSC, has announced a tender for the creation of a 250 MW Battery Energy Storage System (BESS) in Azerbaijan.

Is China a key partner in Azerbaijan's adoption of battery energy storage systems?

China is poised to become a key partner in Azerbaijan's adoption of Battery Energy Storage Systems (BESS) and other advanced energy technologies. During COP29, Azerbaijan's Ministry of Energy signed a Memorandum of Understanding with China Southern Power Grid International (Hong Kong) Co., Ltd and Powerchina Huadong Engineering Corporation Limited.

Are solar energy trends relevant for Azerbaijan?

These trends are highly relevant for Azerbaijan, and during the COP29 climate conference, the Baku International Sea Trade Port (BISTP) and Malaysia's Tiza Green Energy (a subsidiary of Citaglobal) launched the country's first project integrating solar energy with a Battery Energy Storage System (BESS).

What is Azerbaijan's energy regulatory system?

Currently, Azerbaijan's energy regulatory system relies primarily on large-scale gas-fired power plants, which provide stable output unaffected by weather conditions or climate variability.

How will Azerbaijan & ACWA Power work together in 2024?

In May 2024, ACWA Power and Azerbaijan formalized their partnership via an Implementation Agreement that marks a substantial move toward enhancing the country's energy infrastructure. The BESS project aims to mitigate the intermittent nature of renewable sources like wind and PV, by ensuring energy is efficiently stored and dispatched.

Efficient Higher Revenue

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 2 MPPT Trackers, 150% DC Input Oversizing
- Max. PV Input Current 15A, Compatible with High-Power Modules

Intelligent Simple O&M

- IP66 Protection Degree: support outdoor installation
- Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

Flexible Abundant Configuration

- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead-acid and Lithium Batteries
- Max. 6 units Inverters Parallel
- ARC Function (Optional): when an arc fault is detected the inverter immediately stops operation
