

SolarInvert Energy Solutions

Baku Emergency Energy Storage Power Supply

BASIC APPLICATION

Storage systems have been proven to be "extremely lucrative" for commercial and industrial (C&I) fields.

Overview

Will Azerbaijan deploy a battery energy storage system?

Signing of documents in Baku, Azerbaijan. Image: Republic of Azerbaijan, Ministry of Energy. Power plant developer ACWA Power and the government of Azerbaijan have signed an agreement to potentially deploy a battery energy storage system (BESS) in the central Asian country.

How has Azerbaijan managed supply and demand shocks?

However, the country has mitigated the risk of supply or demand shocks by diversifying its export routes and its oil product import sources. Over the last 20 years, Azerbaijan has invested heavily in modernising its energy infrastructure, including for electricity generation.

How many underground gas storage facilities are there in Azerbaijan?

Azerbaijan also has two underground gas storage facilities: Kalmaz and Garadag, both located at Garadag. Gas is supplied by the Gazi-Mammad-Baku pipeline, and total storage capacity is around 3.5 bcm (Kalmaz 1.5 bcm; Garadag 2 bcm). There are plans to expand the capacity of underground gas storage facilities to 5 bcm.

What is the biggest battery storage project in the Middle East?

It is currently developing what is thought to be the Middle East's biggest battery storage project to date, a 1,200MWh – 1,300MWh system planned at the Red Sea Project, an off-grid resort off the coast of Saudi Arabia.

How many high-voltage substations are there in Azerbaijan?

Azerbaijan's high-voltage network totals around 7 800 km: 1 505 km at 220 kV; 31 km at 230 kV; 1 542 km at 330 kV; and 477 km at 500 kV. The network has 93 high-voltage substations.

How much electricity does Azerbaijan Export?

In 2021, it exported around 1.6 TWh to Georgia, Russia and Türkiye. Transmission capacity with Russia is around 350 MW. With Georgia, Azerbaijan has two cross-border connections: the 500 kV Samukh-Gardabani line (650 MW of export capacity to Georgia and to Türkiye via transit) and the 330 kV Agstafa-Gardabani line.
