Who regulates electricity in Azerbaijan?

Jan 1. Regulation of Electrical Industry in Azerbaijan In Azerbaijan, the field of energy, including electric power, is regulated by the Ministry of Energy of the Republic of Azerbaijan. The main energy producers in the country, as well as the companies that distribute and sell electricity, also belong to.

What are the goals of Azerbaijan State Agency?

the investment attractiveness of the relevant industry. The main goals of the state agency are to increase the share of renewable energy sources in the installed capacity of electricity in Azerbaijan to 30% by 2030, to transform the territories freed from occupation into "Green Energy" Zones, and to ensure the participation of the private sector.

Can Azerbaijan use the Garabagh River for electricity generation?

part of the southern areas may be used for agriculture. Taking into account the fact that 25% of local water resources in Azerbaijan are formed in Garabagh, the perspective of using the main rivers such as Tartar, Bazarchay, Hakari and their tributaries for the purpose of electricity generation is considered. The potential of win
