Battery pack factory in the Middle East

Overview

Who is Middle East Battery Company?

Middle East Battery Company has the latest and largest advanced technology plant in the region engaged in manufacturing automotive sealed maintenance free batteries for all types of cars.

Will statevolt build a battery plant in Ras Al Khaimah?

Statevolt plans to build such a facility in Ras Al Khaimah, with a planned capital outlay of \$3.2 billion. The battery cells that it will produce will be 'technology-agnostic', according to the promoters.

What makes a good battery manufacturer?

Ability to produce all battery mix and fulfilling majority of market requirements. Plant location in the middle of the GCC, and Middle East markets. A Joint Venture with Clarios the world's leading battery manufacturer. Implement and execute the highest quality/safety standards and environmental protection.

How will statevolt Emira 'technology-agnostic' battery production work?

The battery cells that it will produce will be 'technology-agnostic', according to the promoters. Statevolt Emirates will implement a 'modular design' approach, allowing for a faster entry to market as well as a 'solution to diversify production based on technology readiness'.

What is statevolt Emirates' Gigafactory?

The Statevolt Emirates' gigafactory is to 'meet the surging global demand for energy storage solutions', deemed as crucial for stabilizing the grid. And will focus on key export markets such as Africa, India, the UAE, and the broader Middle East. It will have an annual production capacity of up to 40GWh on reaching full operations.

Could the UAE have a Gigafactory?

The biggest names in EV business have committed massive funds to gigafactories. Now, the UAE could have such a project. (Pictured of Tesla gigafactory in Shanghai used for illustrative purposes.) Image Credit: Agency
