

## SolarInvert Energy Solutions

# Belgian Antwerp Air Energy Storage Power Generation Company

## Overview

---

How will totalenergies supply green electricity in Antwerp?

As part of a 200 MW Air Liquide electrolyzer project, TotalEnergies has signed a tolling agreement for 130 MW dedicated to the annual production of 15,000 tons of green hydrogen for its Antwerp platform. Upstream of the electrolyzer, TotalEnergies will supply green electricity thanks to its OranjeWind offshore wind project.

Why is the Antwerp platform speeding up its own decarbonization?

Thanks to green hydrogen, the Antwerp platform is speeding up its own decarbonization. As part of a 200 MW Air Liquide electrolyzer project, TotalEnergies has signed a tolling agreement for 130 MW dedicated to the annual production of 15,000 tons of green hydrogen for its Antwerp platform.

What is Antwerp's battery storage system?

With a power rating of 25 MW and capacity of 75 MWh, Antwerp's battery storage system is TotalEnergies' biggest in Europe. Commissioned last year, it helps offset the intermittency of renewable energies to encourage their development. Adapting to meet changing market needs and address overcapacity in petrochemicals.

Is totalenergies launching a battery farm project in Belgium?

Download the Press Release (PDF) Paris, May 15, 2023 – TotalEnergies has launched at its Antwerp refinery (Belgium), a battery farm project for energy storage with a power rating of 25 MW and capacity of 75 MWh, equivalent to the daily consumption of close to 10,000 households. A First Flagship Energy Storage Project in Belgium.

What does totalenergies' Antwerp platform mean for petrochemicals?

TotalEnergies' Antwerp platform provides an update on its investments for the future and announces plan to reconfigure its petrochemicals operations to

strengthen competitiveness. Thanks to green hydrogen, the Antwerp platform is speeding up its own decarbonization.

What makes Antwerp a key industrial site for totalenergies?

A key industrial site for TotalEnergies for more than 75 years, the Antwerp platform is based on an integrated business model, which guarantees the resilience of its operations.
