

## SolarInvert Energy Solutions

# Belgian mobile off-grid energy storage system manufacturer recommendation

## Overview

---

Is ENGIE building a battery energy storage system in Belgium?

A render of the project in Vilvoorde. Image: Engie. Multinational utility and IPP Engie has launched construction on a 200MW/800MWh battery energy storage system (BESS) in Belgium. The France-headquartered firm announced the start of construction in the 4-hour duration project in Vilvoorde, Belgium, on 5 July.

Is ENGIE launching a 200mw/800mwh battery energy storage system in Belgium?

Utility and IPP Engie has launched construction on a 200MW/800MWh battery energy storage system (BESS) in Belgium.

How will Sweco contribute to Belgium's energy grid?

The park will make a significant contribution to the energy grid by providing stored renewable energy during periods of low solar and wind energy production — thereby reducing Belgium's reliance on gas power plants. Sweco will deliver the design of the civil engineering and electrical engineering works of the battery energy storage system (BESS).

What is the D-Stor battery storage project in Belgium?

A digital illustration of the D-STOR battery storage project in Belgium. Image: BSTOR. Project owners BSTOR and Energy Solutions Group have started building separate BESS projects totalling 440MWh of capacity in Belgium, following financial close, both of which will use Tesla Megapacks.

Is Belgium a good place to invest in battery storage?

Belgium is one of the most active and mature grid-scale energy storage markets in Europe, with diversified opportunities for monetising battery storage via flexibility markets and a supportive regulatory regime.

Who is delivering a battery energy storage system?

It will be delivered by Italian developer NHOA Energy. French state-backed utility Engie has broken ground on the second of the battery energy storage systems (BESS) awarded it by Belgian grid operator Elia under a national plan to procure more grid electricity.
