

SolarInvert Energy Solutions

Belgrade s largest energy storage power station

Overview

What is a Chinese energy project in Serbia?

This project is the first large-scale energy project undertaken by a Chinese company in Serbia and a key practical cooperation project under the Belt and Road Initiative between China and Serbia in the energy sector.

How reliable is the Kostolac-B power plant?

The Kostolac-B Power Plant. The second phase of the Kostolac-B Power Plant project – Serbia's largest energy project, being constructed by POWERCHINA – successfully passed the 168-hour reliability test operation.

Where is Kostolac-B power plant located?

The project is located within the Kostolac-B Power Plant in the town of Kostolac, east of Pozarevac, Serbia, more than 100 kilometers from Belgrade Airport.

How many kilowatts a year will Serbia produce?

The plant is expected to generate 2.5 billion kilowatt-hours of power annually, bringing Serbia's total installed capacity to over 16 percent of the country's national capacity.
