

## SolarInvert Energy Solutions

# Bess battery storage for sale in Netherlands

## Overview

---

Where is the Netherlands' largest battery energy storage system located?

Dispatch, a leading Dutch battery developer, is going to construct the Netherlands' largest stand-alone Battery Energy Storage System (BESS). This groundbreaking 45MW/ 90Mh utility-scale BESS will be located in the port area of Dordrecht, on a 6000m<sup>2</sup> site and will be used for grid stabilization by storing excess energy from renewable sources.

How much energy does a Bess battery storage system store?

The 45MW/ 90Mh utility-scale BESS will on average store enough energy supply equivalent for 21.500 households per day. Construction is set to commence in the coming months. Equans Netherlands will take charge of the engineering and construction of the battery storage system.

Is the Netherlands a good market for battery storage?

The Netherlands is an emerging market for battery storage but, due to the lack of saturation, also a highly exploitable one. In early 2025, inspired, together with Flexcity and S4 Energy, reached an exciting milestone by taking the country's first 4-hour BESS live in a cross-market optimization setup.

Who makes the Bess battery?

Conducting the engineering and construction of the BESS is the multinational company, Equans Netherlands. Dutch energy player, Eneco, is tasked with tweaking the battery for optimal performance, enabling it to maintain the grid's balance without escalating local congestion.

Are battery energy storage systems a direct source of flexibility?

An important direct source of flexibility for the electricity market, are battery energy storage systems (BESS). DNV has been commissioned by Invest-NL to examine the Dutch wholesale and balancing market developments and opportunities for BESS.

Are batteries a sustainable solution to future-proof the Netherlands' electricity system?

Batteries, both BTM and grid-scale FTM (front-of-the-meter), play an important role in mitigating such challenges and offer a sustainable solution to future-proof the Netherlands' electricity system. But how can it integrate more batteries if the grid struggles to handle the current load?

## Bess battery storage for sale in Netherlands

---

### Battery Energy Storage Systems for Sale , 211

We offer a range of 50Hz, 3 phase Battery Energy Storage Systems (BESS) with capacities from 211 to 2280 kWh from major global power solution equipment manufacturers.
