Overview

Who is Black Mountain Energy Storage?

Leveraging cumulative decades of electric market experience, Black Mountain Energy Storage develops powerful, flexible, and strategically placed battery energy storage projects to foster a resilient electric grid. BMES' quickly expanding team of energy experts are fast actors in pipeline development of utility-scale energy storage solutions.

Could mountains be used to build a battery for long-term energy storage?

A team of European scientists proposes using mountains to build a new type of battery for long-term energy storage. The intermittent nature of energy sources such as solar and wind has made it difficult to incorporate them into grids, which require a steady power supply.

Did UBS acquire Black Mountain Energy Storage?

UBS Asset Management today announced the acquisition of five standalone, development-stage energy storage projects in Texas from Black Mountain Energy Storage. [Read more.](#) Cypress Creek Renewables has added 400MW/600MWh to its storage portfolio after acquiring four Texas standalone energy storage projects from Black Mountain Energy Storage.

Will a 200mwh battery energy storage system be online in 2024?

A 200MWh battery energy storage system (BESS) from developer Available Power at a net-zero technology campus in Texas is expected to be online in mid-2024. [Read more.](#) Energy companies are snapping up storage assets in the 'Lone Star State'. The state's lack of secure energy supply is driving the innovation. [Read more.](#)
