

Bloemfontein PV inverter import declaration

Overview

Is South Africa facing a new wave of solar import duties?

The solar industry in South Africa is facing a new wave of pressure, as import duties are now officially applied to various renewable energy components, including photovoltaic (PV) solar panels. Although the 10% import duty officially came into effect in June 2024, many installers and developers are only now beginning to feel its impact.

Which solar panels are not subject to new import duties?

In light of these developments, securing stock that has already cleared customs before the duty's implementation is crucial. IBC SOLAR South Africa has recently received new stock of LONGi Hi-MO X6 Max (LR7-72HTH 615M) solar panels, which are not subject to the new import duties.

Is there a 10% import duty on crystalline silicon PV panels?

As of 28 June 2024, a 10% import duty has been imposed on crystalline silicon PV modules and panels.

Can a certification mark be fixed on a photovoltaic module?

The product was tested on a voluntary basis and complies with the essential requirements. The certification mark shown above can be fixed on the product. It is not permitted to alter the certification mark in any way. In addition, the certification holder must not transfer the certifi
