

## SolarInvert Energy Solutions

# Bms battery master control unit

## Overview

---

The master is the higher-level control unit of the battery. It includes processing of signals, measurements, communication and control interfaces. One master can control up to 15 CSC boards.

## Bms battery master control unit

---

### **REC BMS - REC Battery Management System**

We offer diverse battery management system configurations suitable for each individual customer, including additional programming, software development, ...
