

SolarInvert Energy Solutions

Boston Power Energy Storage Vehicle Manufacturer

Overview

Will Massachusetts help Boston-power build a new energy storage facility?

Enabling energy storage to continue to flourish in Massachusetts, state officials are working closely with Boston-Power to pursue state and federal financial incentives that will help the company to fulfill its plans of building the Auburn facility.

Who is Boston-power?

Learn more. Boston-Power (Boston Power Corporation) is a developer and manufacturer of next-generation lithium-ion battery cells, blocks, modules and systems.

How much money does Boston-power need?

With support from Massachusetts officials, Boston-Power is seeking approximately \$100 million under the U.S. Department of Energy's advanced battery and cell manufacturing grant program established as a part of the American Recovery and Reinvestment Act.

Where is the world's most advanced battery manufacturing facility located?

Boston-Power, Inc. announced that the company is working to build what it describes as one of the world's most advanced battery manufacturing facilities in Auburn, Massachusetts.

How many jobs will Boston-power add to China?

Extending the mass manufacturing capabilities Boston-Power already operates in Greater China, the 455,000 square foot Auburn facility would add 600 new jobs at Boston-Power and as many as 2,000 more indirectly through the extended supply chain.

Why did Boston-power choose Auburn?

Boston-Power selected the Auburn site based on proximity to its headquarters.

This affords synergies between the company's R&D and manufacturing teams while minimizing shipping and related employee productivity and efficiency costs.
