Bridgetown Microinverter Inventory

Overview

What is a goodwe microinverter?

GoodWe's MIS Series microinverter is an ideal solution for residential and small commercial settings. Designed to work seamlessly with solar panels, each microinverter is paired with four panels, enabling individual panel tracking. The MIS Series microinverter is equipped with built-in WiFi and Bluetooth for easy setup and maintenance.

What is a mis series microinverter?

The MIS Series microinverter is equipped with built-in WiFi and Bluetooth for easy setup and maintenance. Furthermore, it elevates monitoring and communication capabilities, empowering users to monitor each panel's performance in real time and identify any issues or inefficiencies.

What is a DC voltage 60V microinverter?

DC voltage 60V MIS Series microinverters prioritize safety and reliability with a range of features. These include integrated grid protection relays, ensuring grid stability even during fluctuations. With a maximum DC voltage of 60V, they eliminate high DC voltage risks.
