

SolarInvert Energy Solutions

Buenos Aires Energy Storage Solution

100-430KWH

230 | 400V

Overview

How many MW of battery energy storage will be deployed in Buenos Aires?

The initiative aims to deploy 500 MW of battery energy storage systems (BESS) in the Greater Buenos Aires Area (GBA), but the submitted capacity has far exceeded expectations—reaching a combined 1,347 MW.

Does Argentina have a battery energy storage system?

Argentina has taken a major step toward modernizing its energy infrastructure with the launch of a 500 MW battery energy storage system (BESS) tender under the AlmaGBA program.

Does Argentina have a battery storage tender?

Argentina has opened a \$500 million battery storage tender aimed at adding 500 MW of new energy storage capacity in the Buenos Aires metropolitan area. The AlmaGBA program, managed by CAMMESA, offers long-term contracts with fixed payments and financial guarantees to attract developers.

Why is Argentina a good stance on energy storage?

In Argentina, the stance provides a good lesson to the European stakeholders, especially in the commercial and industrial segments of energy storage. Emerging markets can present both local and foreign players by developing tenders that are investment appropriate and clear technically and financially secured.

Is Buenos Aires a good place to buy a battery?

Buenos Aires, with its dense urban load and aging infrastructure, is an ideal candidate for such an upgrade. Moreover, this tender arrives at a time when battery prices are becoming increasingly competitive, and international developers are actively seeking new markets with clear regulatory frameworks and stable revenue models.

What does Argentina's 1.3 GW battery storage tender mean for Latin America?

Argentina's 1.3 GW battery storage tender marks a transformative leap toward grid resilience and clean energy leadership in Latin America.
