Burundi photovoltaic site exchange 125kWh

Overview

What is the solar PV project in Burundi?

The solar PV project in Burundi is a 7.5 MW plant located in Mubuga. Interconnection is expected in Q3 2020, which will increase Burundi's installed electricity capacity by 14%.

What does Burundi's solar plant announcement mean for the energy sector?

According to Geoff Sinclair, Managing Director of Camco Clean Energy, which manages REPP: "Once built, the solar plant will add nearly 15% to Burundi's generation capacity using clean energy." (This passage directly answers the question about the impact on the energy sector.).

Who is behind inspired evolution's solar PV project in Burundi?

Christopher Clarke, Managing Partner at Inspired Evolution, congratulated all parties involved in getting the project to this stage for their part in realising a high development impact solar PV generation plant in Burundi.
