Overview

What type of power outlet does Cambodia use?

Cambodia uses power outlets and plugs of types A, C & G. Take a look at the pictures below to see what these plugs and power sockets look like: Doesn't look familiar?

Do the outlets look different in your country?

You'll need a power plug adapter. Type A - Mostly used in the US, Canada, Mexico, Central America, China and Japan.

What type of power plugs are used in Cambodia?

In Cambodia, power plugs and sockets (outlets) of type A, type C and type G are used. The standard voltage is 230 V at a frequency of 50 Hz. For more information, select the country you live in at the top of this page. We don't sell power plug adapters. We refer you to Amazon, where you will find a great selection of travel adapters.

What us to Cambodia power adapter works best?

Believe me, this is an important question as you have options between what the US to Cambodia power adapter works best. Because you need an adapter that can fit both type A and type C outlets, a universal travel adapter is your best option.

Do I need a travel adapter for a Cambodia Charger?

However, it is possible you'll need an adapter to plug the charger into a Cambodia outlet. Cambodia uses electrical outlets and power plugs of types A, C & G (see images). If your country uses the same electrical outlets and power plugs, you don't need a travel adapter.

Do you need a universal travel adapter in Cambodia?

Because you need an adapter that can fit both type A and type C outlets, a universal travel adapter is your best option. Between accommodations, restaurants, and all building types in Cambodia, the plugs can switch between a type A or C plug. Being prepared for both will keep you covered in any situation and allow you to always have a full charge.

How many power plug heads can be used in Cambodia?

The below 3 powers plug heads can be used in Cambodia easily. Cambodia utilizes three associated plug types, namely A, C, and G. Plug type A has two flat and parallel pins, whereas plug type C comprises of two round pins. Lastly, plug type G comes with three rectangular pins arranged in a triangular pattern.
