

## SolarInvert Energy Solutions

# Cameroon 60W Solar Street Light

## Overview

---

The main cost of solar street lights is the battery. And the cost of the battery takes part about 15% to 20% of the whole solar lights. So battery quality is the most important thing for solar lights purchasing. When you want to buy integrated solar led street light, you may ask, should I.

Why do we choose a Monocrystalline solar panel?

By selecting a monocrystalline solar module, Solar-led street Lighting International knows it will produce more energy, work better in high.

There are 2 types of controllers: PWM and MPPT in the market. All in one solar led street lights to adopt a smart MPPT controller, for, in this case, PWM will waste some energy collected by panels, while.

What is “ >160 Lumens per watt ”?

Why does this matter?

Because we produce more light, using less power than our competitors. 6,400 lumens – This is our entry-level fixture. 12,800 lumens – is our medium-based selection when you need that extra amount of light. 19,200 lumens – is for the client that requires the very best. A light designed.

Quality solar street light use customized die-casting aluminum mold, the advantages of die-casting aluminum mold are lightweight, strong and corrosion resistant, and anti-rust. Making it able to resist a strong wind load of up to 130MPH that can last more than 25 years. stainless steel screws are used as fasteners to protect against any.

Who makes solar street lights in Cameroon?
