Can I bring an outdoor power supply into Mumbai India

Overview

Can I use power plugs in India?

Select your country of residence, to check the compatibility of your power plugs in India. In India, power plugs and sockets (outlets) of type C, type D and type M are used. The standard voltage is 230 V at a frequency of 50 Hz. For more information, select the country you live in at the top of this page. We don't sell power plug adapters.

Do I need a power adapter if I travel to India?

If you are traveling to India with electronic devices from a country with a different voltage or frequency, you will need to use a power adapter and possibly a voltage converter to ensure safe and proper operation of your devices. This Universal Travel Adapter is a must-have for any global traveler, offering unmatched flexibility and ease of use.

What if my Charger is not working in India?

Plug adapter: If the plug on your charger doesn't match the Indian power outlet, you'll need a plug adapter. India uses type C, D, and M plugs, so ensure you have the appropriate adapter for your charger. 3. Power outlet: Locate a suitable power outlet in India.

How to choose a power adapter in India?

Plug Type: India typically uses Type C, Type D, and Type M plugs. Check the type of plug your devices use and ensure the power adapter has the appropriate socket. 3. USB Ports: If you have multiple devices to charge, consider a power adapter with USB ports in addition to the regular sockets.

What type of power sockets are available in India?

The power sockets in India are of type C, D and M. The standard voltage is 230 V at a frequency of 50 Hz. Check your need for a power plug (travel) adapter in India.

Can I use a charger in India?

Chargers for iPhones, Android phones and other smartphones or cell phones are usually dual voltage, so you can use them all over the world. However, it is possible you'll need an adapter to plug the charger into a India outlet. India uses electrical outlets and power plugs of types C, D & M (see images).
