

## SolarInvert Energy Solutions

# Can I join the Samoa Energy Storage Power Station

## Overview

---

How does Samoa's energy system work?

ed integration of innovative distributed energy solutions across its service territory. Currently, Samoa's energy portion of the tariff sees its highest cost kWhs coming from energy supplied through its diesel resources. The Samoan Government has an established goal of 70% renewable energy generation.

Which land is available for solar energy in Samoa?

For power, spaces in front near and the rear end of the thermal station is available for RE. Total land area from Samoa Land Corporation is 15.5 acres. Land was designated for Solar Energy. Lease Property is legally leased to EPC from Samoa La.

How much land is leased to EPC from Samoa LA Corporation?

Land from Samoa Land Corporation is 15.5 acres. Land was designated for Solar Energy. Lease Property is legally leased to EPC from Samoa La Corporation (State Own Enterprise). EPC can sub-lease to the IPP under lease agreement. Property is legally leased to EPC from Samoa La.

How many REGF's a 20-year Power Purchase Agreement (PPA)?

Two REGF's (REGF1 and REGF2) under a 20-year Power Purchase Agreement (PPA) with EPC. Each REGF comprises of a solar PV plant and an energy storage system to maintain a stable and good quality electricity supply for the Respondent feedback from a maximum of 30MWp) 4MW (up to a maximum of 8MWp)B.

Can EPC use Upolu island for land use?

Following land use planning as stipulated by law (Planning and Urban Management Act 2008). EPC can use the land for any land use desired, with the need to obtain consent from local authority. Top of Upolu Island is naturally hilly with the rear boundary is higher than the
