Can a mobile power supply be connected to a distribution box

Overview

What is an electric mobile power distribution box?

INDU-ELECTRIC mobile Power Distribution Boxes have been designed specially for use on construction sites, on stage and in the TV, film, and entertainment industries. INDU-ELECTRIC Power Distribution Boxes above 125 A must be connected and operated only by qualified electricians or appropriately instructed persons.

How are mobile power distribution boxes manufactured?

The mobile Power Distribution Boxes are manufactured according to the applicable directives, standards and regulations. As part of final inspection and testing, the required inspections and tests are performed on all Power Distribution Boxes and recorded. This ensures that all products are built to the same high quality standard.

Where should power distribution boxes be placed?

To prevent the inner heating up further through sunlight, the Power Distribution Boxes should, where possible be placed in a shady location. Do not place the Power Distribution Boxes with the fuse side directly against a wall, as this impairs heat dissipation from the built-in short-circuit protective devices (SCPD).

What is a power distribution box (PDB)?

PDBs are commonly used at construction sites, outdoor events, and emergencies requiring a mobile power source. Unlike permanent distribution boards, power distribution boxes are compact, rugged, and designed for easy transport and setup.

What is a power distribution box?

Our Power Distribution Boxes are designed for pollution degree 3 (industrial environment) as well as for an EMC environment B (public low-voltage

networks). The insulation resistance must be measured between the active conductors and the protective conductor connected to earth.

Can a power distribution box be stacked?

Power Distribution Box with a connected load of 63 – 250 A up to a height of 500 mm must only be stacked if the enclosures are equipped with stacking fittings. The 54 series Power Distribution Box are fitted with these as standard.
