

## SolarInvert Energy Solutions

# Can lithium battery packs be exported

### DETAILS AND PACKAGING

① USER MANUAL PDF

② RJ45 Cable For RS485/CAN

③ Battery in Parallel Cables

④ RJ45 TO USB Monitor Cable

⑤ M8 Terminal\*4

## Overview

---

As high - tech products, the export of lithium - ion batteries involves complex regulations and transportation requirements. A slight oversight may lead to cargo delays or even fines. How to ship lithium batteries from China?

When it comes to shipping lithium batteries from China, there are many safety regulations you must follow. Comply with IATA regulations, label battery properly and use recommended packaging procedures, amongst others. That's why this guide explores all the vital aspects you should know about shipping lithium batteries from China.

Can You ship lithium batteries by ocean freight?

The guidelines of shipping Lithium Batteries to any destination by ocean freight are contained in the International Maritime Dangerous Goods (IMDG) Code. Here are some regulations you should follow when using ocean freight: All batteries must undergo the UN38.3 tests and 1.2 meter drop packaging test; and pass them.

Can lithium ion batteries be shipped as cargo?

Of course, in accordance to the IATA guidelines. Li-ion batteries may be shipped as cargo in a passenger aircraft under approval by the State of Origin, State of Destination, and State of the Operator. Where the lithium ion meets the required passenger aircraft weight requirement.

Are lithium-ion batteries safe to ship?

For Lithium-Ion batteries packaged separately IATA advises the following safety measures for shipping in passengers aircraft: Batteries should have a less than 30 percent state of charge (SoC) of its rated capacity.

Does USPS ship lithium batteries?

USPS is permitting specific quantities of Lithium batteries (when placed in the device they are to operate) and ship them internationally if permitted by the

destination country. However, they cannot ship to the postal operators in Germany and Italy who are not accepting items containing Lithium Batteries.

Can I ship a lithium ion battery by air?

For this reason, any battery that is suspected or known to be defective (swelling, corroding or leaking, for example) is not permitted for shipping within the DHL Express network. When you're shipping lithium-ion batteries by air, it's essential to follow specific regulations regarding their state of charge (SoC).
