Canberra Electric Forklift Lithium Battery Pack

Overview

Can bslbatt batteries be used with a forklift?

Our BSLBatt Batteries can be dropped in and utilised with any Battery Powered Machinery, with the supplied display screen working displaying all relative information, and coupled with a Battery ON / OFF switch, for seamless integration into any Electric Forklift or Ground Support Equipment.

What is lithium ion forklift battery?

Lithium-Ion battery technology is quickly becoming the far superior choice of battery for specialised high usage electric forklift applications over all other Forklift variants. We provide industry leading BSLBatt Lithium-Ion Forklift Battery products for our customers Australia wide.

Why should you choose a lithium-ion battery for your electric forklift?

We offer a wide range of solutions for your Electric Forklift power needs at competitive prices. Lithium-Ion battery technology is quickly becoming the far superior choice of battery for specialised high usage electric forklift applications over all other Forklift variants.

What is a lithium battery?

Lithium Batteries are a specialised Battery Technology that allows for a much greater usage performance and Battery life expectancy compared to traditional low cost Lead Acid Battery power options for Electric Forklifts.

Are lithium-ion batteries good for electric lift trucks?

Lithium-ion batteries provide the clean operation you expect from electrification while adding exceptional charging flexibility and consistent, long-lasting performance. When you look at the total cost of ownership and long-term value of our electric lift trucks, adding clean power to your fleet has never been easier or made more sense.

What products does industrial batteries Australia offer?

Formerly known as CEIL POWER Systems, Industrial Batteries Australia has expanded and now offers the following product lines: Flooded Lead Acid LITHIUM-ION QUASAR GEL Our products have been trusted and proven in Australia for nearly 25 years.
