

## SolarInvert Energy Solutions

# Canberra energy storage power customization company

## Overview

---

Does solar energy storage make economic sense in Canberra?

Whether or not solar energy storage makes economic sense for your home in Canberra depends first and foremost on whether or not you already have a solar system, and if you do whether or not you have access to a Territory-supported solar feed-in tariff.

Why should we use batteries in Canberra?

Batteries can store excess renewable energy to be used at later times of higher demand - thereby extending the benefit of renewable energy into the evenings. It will increase the renewable energy hosting capacity across the ACT enabling more Canberrans to access the benefits of renewables.

What is the Big Canberra battery project?

The Big Canberra Battery project will deliver large-scale batteries across the ACT to ensure that our electricity grid remains stable. Funding: \$300 million +  
The Big Canberra Battery project will deliver large-scale batteries across the ACT to ensure that our electricity grid remains stable.

What is energy storage & why is it important?

Energy storage is a key priority for the ACT Government as it transitions away from fossil fuels and gas and pursues its plan to reach net zero emissions by 2045. This grid-scale storage system can store as much electricity as can be generated from 25,000 average solar rooftop solar systems on an average day 2.

Does Eku energy deliver the Williamsdale Bess in Australia?

Eku Energy is proud to deliver the Williamsdale BESS in the Australian Capital Territory with the support of our valuable partners. What is the Williamsdale BESS?
